Review Report to
The Board of Directors,
Purvanchal Vidyut Vitran Nigam Limited,

Varanasi - 221004

Dear Sir,

Re: Limited Review Report of the Standalone Un-audited Financial Results for the Quarter ended 31st December, 2024 and year to date 1st April, 2024 to 31st December, 2024.

Report on the Financial Statements

We have reviewed the accompanying statement of Un-audited Standalone financial results of Purvanchal Vidyut Vitran Nigam Limited, Bhikharipur, Varanasi for the quarter ended 31st December, 2024.

Management's Responsibility for the Interim Financial Statements

This statement which is the responsibility of the Company's Management has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" (Ind AS 34), prepared under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India. However, where there is deviation from the provisions of the Companies Act, 2013, the corresponding provisions of Electricity (Supply) Annual Accounts Rules 1985 have been adopted (To the extent notified and applicable). Our responsibility is to issue a report on the financial statement based on our review.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying unaudited Standalone financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free from material misstatement.

A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Conclusion

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Standalone Un-audited financial results prepared in accordance with the applicable Indian Accounting Standards and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of the Regulation 52 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement.

XIV- FINANCIAL ASSETS

Initial recognition and measurement:

Financial assets of the Company comprises, Cash & Cash Equivalents, Bank Balances, Trade Receivable, Advance to Contractors, Advance to Employees, Security Deposits, Claim recoverables etc. The Financial assets are recognized when the company become a party to the contractual provisions of the instrument.

All the Financial Assets are recognized initially at fair value plus transaction cost that are attributable to the acquisition or issue of the financial assets as the company purchase/acquire the same on arm length price and the arm length price is the price on which the assets can be exchanged.

Subsequent Measurement:

A- Debt Instrument:- A debt instrument is measured at the amortized cost in accordance with Ind AS 109.

B- Equity Instrument:- All equity investments in entities are measured at fair value through P & L (FVTPL) as the same is not held for trading.

Impairment on Financial Assets- Expected credit loss or provisions are recognized for all financial assets subsequent to initial recognition. The impairment losses and reversals are recognised in Statement of Profit & Loss.

2

XV- FINANCIAL LIABILITIES

Initial recognition and measurement:

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. All the financial liabilities are recognised initially at fair value. The Company's financial liabilities include trade payables, borrowings and other payables.

Subsequent Measurement:

Borrowings have been measured at fair value using effective interest rate (EIR) method. Effective interest rate method is a method of calculating the amortised cost of a financial instrument and of allocating interest and other expenses over the relevant period. Since each borrowings has its own separate rate of interest and risk, therefore the rate of interest at which they are existing is treated as EIR. Trade and other payables are shown at contractual value/amortized cost.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

XVI- MATERIAL PRIOR PERIOD ERROR

Material prior period errors are corrected retrospectively by restating the comparative amount for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balance of assets, liabilities and equity for the earliest period presented, are restated.

10. (i) The Company has reviewed the policy of provision of Bad & Doubtful Debts against sale of power from FY 2021-22, in order to ensure compliance as well as accounting in accordance with the provisions contained in the Ind AS-109 and companies Act, 2013. The objective of introducing/implementing new policy is to provide a scientific approach and logical mode of calculation for creating provision on the receivable reflecting at the period end i.e. 31.12.2024.

Note:- Following assumption/management estimate has been considered while formulating the provisioning rates:-

- a) Electricity dues/receivables from Government Consumers as at the financial year end has not been considered for provisioning towards Bad & Doubtful Debts considering that the GoUP makes the provision regularly in its budget towards payment against electricity dues/receivables from the Departments of GoUP based on the decision taken to release payment of electricity

✓

dues/receivables centrally. Further, the Central Government's Departments generally make regular payment of electricity dues/receivables.

- b) Under age bucket upto 9 month:- As company believes that the consumers in this category are in the phase of temporary disconnection for 6 months until it becomes permanently disconnected and would pay their dues within 6 months from the date of being temporarily disconnected based on the collection efforts and initiatives being taken. The chances of recovery during this period are significantly higher. Therefore it has been assumed that the expected loss amount would be zero in this age bucket.
- c) Under age bucket greater than 3 year:- As per IND AS 109 under this age bucket as per the simplified approach calculation loss amount would be the total outstanding amount which expects provisioning at the rate of 100 percent. However, based on the collection efforts and the current and future initiatives being undertaken for collection it has been decided to follow a graded provisioning over a period of four years from the FY 2022-23. Under these assumptions, in the current financial year provisioning @ 80% on trade receivables is proposed under this age bucket for F.Y. 2025 and the same would be increased by another 20% each year till F.Y. 2026. From F.Y. 2026 onwards, 100% provision would be applicable under this age bucket.

(i) Trade receivables appearing in books of accounts are under reconciliation with arrear appearing in online billing system.

11. Bills of power purchase are being taken into account as per the bills raised by UPPCL after due verification.
12. Government dues in respect of Electricity Duty and other Levies amounting to ₹ 2,523.75 Cr. shown in Note no. 17 of Balance Sheet, includes ₹22.14 Cr. on account of Other Levies Payable.

14. Some balances appearing under the heads 'Current Assets', 'Unsecured Loans', 'Current Liabilities', Material in transit/ under inspection/lying with contractors are subject to confirmation/ reconciliation and subsequent adjustments, as may be required.
15. Basic and diluted earnings per share has been shown in the Statement of Profit & Loss in accordance with Ind-AS 33 "Earnings Per Share". Basic earnings per share have been computed by dividing net loss after tax by the weighted average number of equity shares outstanding during the year. Number used for calculating diluted earnings per equity share includes the amount of share application money (pending for allotment).

		(₹In Cr.)	
	Particulars	31.12.2024	31.03.2024
(a)	Net loss after tax (numerator used for calculation)	(2679.13)	(3,776.85)
(b)	Weighted average number of Equity Shares (denominator for calculating Basic EPS)	309022651	280245622
(c)	Weighted average number of Equity Shares (denominator for calculating Diluted EPS)	322170796	292581563
(d)	Basic earnings per share of ₹1000/- each	(86.70)	(143.82)
(e)	Diluted earnings per share of ₹1000/- each	(86.70)	(143.82)

(As per para 43 of Ind-AS 33 issued by Institute of Chartered Accountants of India, Potential Equity Shares are treated as Anti-Dilutive as their conversion to Equity Share would decrease loss per share, therefore, effect of Anti-Dilutive Potential Equity Shares are ignored in calculating Diluted Earnings Per Share)

The company's principal financial assets include borrowings/advances, trade & other receivables and Cash that derive directly from its operations.

The company is exposed to the following risks from its use of financial instruments:

(a) Credit Risk:

Credit risk is the risk of financial loss to the company if a customer or counter party to a financial instrument fails to meet its contractual obligation resulting in a financial loss to the company. Credit risk arises principally from cash & cash equivalents and deposits with banks and financial institutions. In order to manage the risk, company accepts only high rated bank/FIs.

(b) Market Risk:

Foreign Currency Risk: Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the company's income/loss. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return. The company has no material foreign currency transaction hence there is no Market Risk w.r.t foreign currency translation.

Interest Rate Risk: The Company is exposed to interest rate risk arising from borrowing with floating rates because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The company manages the interest rate risks by entering into different kind of loan arrangements with varied terms (e.g. Rate of interest, tenure etc.).

2

At the reporting date the interest rate profile of the company's interest-bearing financial instruments are as under:-

(₹In Cr.)		
Particulars	31.12.2024	31.03.2024

Variable Interest Rate Instruments- Cash Credit from Banks

Fair value sensitivity analysis for fixed-rate instruments

The company's fixed rate instruments are carried at amortized cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(c) Liquidity Risk:

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed condition, without incurring unacceptable losses or risking damage to the company's reputation.

The company manage liquidity risk by maintaining adequate FI/Bank facilities and reserve borrowing facilities by continuously monitoring, forecast the actual cash flows and matching the maturity profile of financial assets and liabilities.

(d) Regulatory Risk:

The company's substantial operations are subject to regulatory interventions, introductions of new laws and regulations including changes in competitive framework. The rapidly changing regulatory landscape poses a risk to the company. Regulations are framed by State Regulatory Commission as regard to Standard of Performance for utilities, Terms & Conditions for determination of tariff, obligation of Renewable Energy purchase, grant of open Access, Deviation Settlement Mechanism, Power Market Regulations etc. Moreover, the State Government is notifying various guidelines and policy for growth of the sector. These Policies/Regulations are modified from time to time based on need and development in the sector. Hence the policy/regulation is not restricted only to compliance but also has implications for operational performance of utilities, return of Equity, Revenue, competitiveness, and scope of supply.

To protect the interest of utilities, State Utilities are actively participating while framing of Regulations.
